

MICHIGAN AFFORDABLE HOUSING COMMUNITY FIVE YEAR ACTION PLAN VISION OF PROCESS AND PRODUCT

1. All members of the affordable housing community will embrace the Michigan Affordable Housing Community Five Year Action Plan as a roadmap.
2. The Action Plan process is inclusive and builds on the concept of “one community”.
3. The seventeen Action Plan workgroups have been formed around issues identified as critical by affordable housing partners and MSHDA’s staff and Board.
4. The Action Plan workgroups are charged with defining the problem, identifying critical needs and priorities, identifying resource needs and sources, and making recommendations for the final Action Plan.
5. We are looking for **vision** from the workgroups. Members should be ambitious in thinking about how we can reach beyond where we are today.
6. The process will be messy at times-but that’s OK! We will learn from one another through this process and identify a clear action plan to achieve our mission.
